

Subject: Passionate Cybersecurity Student Seeking Internship Opportunities

Dear Hiring Manager,

I am writing to express my interest in internship opportunities within the field of **cybersecurity**. As a **B.Tech CSE student at IcfaiTech Hyderabad** with a strong foundation in computer science and hands-on project experience, I am eager to contribute my skills, curiosity, and dedication to securing digital systems.

Over the past year, I have worked on multiple projects that strengthened both my technical expertise and problem-solving mindset. Most notably, I built **StegoShield**, a full-stack web application designed to detect hidden malicious payloads in image, audio, and video files using **deep learning and steganalysis techniques**. Additionally, I have gained practical exposure to **Kali Linux, network vulnerability scanning, and reporting**, as well as completing certifications such as the **Google Cybersecurity Professional Certificate**.

My goal is to become an **ethical hacker**, and I believe that real-world exposure through internships will allow me to apply my knowledge while continuing to learn from experienced professionals. I am confident that my blend of technical skills, cybersecurity certifications, and passion for ethical hacking make me a strong fit for any organization seeking motivated talent in this domain.

Thank you for taking the time to review my application. I would welcome the opportunity to discuss how my skills and enthusiasm for cybersecurity can contribute to your team's goals.

Sincerely,

Sneha Sah
